CAMPUS HEALTH, WELLNESS & MEDICAL FACILITIES

S. Chandra Mahila Mahavidyalaya, Amgaon prioritizes the physical health, psychological well-being, and nutritional safety of its students. Given its position as a premier women's institution in a rural region, the college has established a robust healthcare support system. This framework combines on-campus first-aid systems with external clinical networks and academic wellness counselling.

On-Campus Emergency & Medical Care Facilities

Primary Health & First-Aid Desk: The college maintains a dedicated Medical First-Aid Room equipped with essential diagnostic tools (including digital blood pressure monitors, glucometers, and weighing scales), standard over-the-counter therapeutic consumables.

Sanitary Hygiene Infrastructure: To ensure menstrual hygiene management, the campus is equipped with automated Sanitary Napkin Vending Machines alongside eco-friendly incinerator disposal units located in the primary women's common rooms.

Purified Drinking Water Supply: The campus maintains automated RO water purification plants to prevent water-borne illnesses and ensure a continuous supply of clean drinking water.

Specialized Healthcare Projects & Clinical Linkages (Active MoUs)

To provide students with advanced medical attention, specialized diagnostics, and therapeutic care, the institution leverages its key institutional partnerships:

1. Clinical Diagnostics & Ayurvedic Wellness

Strategic Partner: Aarogyam Clinic, Amgaon

Operational Scope: This partnership guarantees our students priority access to advanced clinical diagnostics, therapeutic care, and emergency hospitalizations. The institute

coordinates annual Free Health Check-up Camps, haemoglobin monitoring drives, and diagnostic screenings on campus.

2. Advanced Nutritional Consultancy & Dietetics

Academic Wing: Department of Home Sciences (Food & Nutrition / Diet Therapy)

Operational Scope: Utilizing the expertise of specialized faculties, the department runs a localized Nutritional Consultation Cell. This cell provides personalized diet charts, metabolic lifestyle tracking, and clinical nutrition advice to combat regional health concerns like anemia and malnutrition.

3. Sports Medicine & Physical Therapy Support

Academic Wing: Department of Physical Education (Directed by Dr. Ajay A. Moon)

Operational Scope: Backed by Dr. Moon's published medical research and his textbook "**Khel Chikitsa**" (Sports Medicine), the department offers specialized guidance in posture correction, physical therapy, sports injury rehabilitation, and core athletic fitness.

Annual Institutional Health Activities & Frameworks

The college conducts systematic health interventions throughout the academic term to promote student awareness:

Annual Medical Screening Matrix: It is mandatory for all newly enrolled first-year undergraduate students to undergo the official RTMNU Annual Medical Examination conducted on campus by certified medical officers.

Public Health & Hygiene Awareness Seminars: In collaboration with the Health & Hygiene, the college hosts regular workshops focusing on community sanitation, communicable disease tracking, and mental health management.
